What is time?

A General Relativistic Perspective

When: April 16, 2025

3:30 pm

Where: Marston Exploration
Theater

<https://asu.zoom.us/j/84941778427>

Melanie Brose was an adventurer, scientist, and philosopher who dedicated herself to understanding and protecting the natural world, and cultivating wisdom and beauty. She had an abiding fascination with the nature of time and a vision of transcending its strictures. The ARCHELON project at Arizona State University, supported by Melanie Brose's resources, seeks to encourage research aligned with her inspiration that advance our understanding of time.
